

Report for week 14

Team name: Team Deepcourse

Members: Maxwell Panec, Justin Barragan, Peizu Li, Hung Nguyen

Current Team Lead: Maxwell Panec

Project Title: Study Sets

Github: <https://github.com/maxpanec/Deeppcourse>

Tasks Assignment:

- Max: Hosting
- Peizu: Testing
- Hung: Testing
- Justin: Quiz confirmation

Milestones With Deadlines:

1. Create React/Express apps and finalize features for the project (2/8)
2. Create UI mockups and design/host the database (2/23)
3. Implement creating accounts and homepage (3/9)
4. Implement creating/viewing flashcards (3/23)
5. Implement creating/taking quizzes (4/20)
6. Implement quiz progression timeline (4/27)
7. Comprehensive Testing and Polishing(5/4)

Technology Tools Used: React, Node, Express, MongoDB

Tasks/Milestones Completed: This week, our team completed the seventh milestone and also set up hosting

- Popup for confirmation of quiz submission
- Added code commenting on github
- Went through our test plan to make sure it works
- Hosted frontend and backend

Instructions on Verifying Work:

Build project based on instructions

here:https://github.com/maxpanec/Deeppcourse/blob/main/docs/expert_users/expert_user_guid_e.md

Open the web app in your browser (go to frontend url from instructions above)

- Create account or login to existing account

- Create a flashcard set with at least 4 cards
- Take a quiz
- Only answer half the questions
- Go to submit quiz
- Confirm you want to submit anyways

Hosted verification

Go to <https://maxpanec.github.io/Deepcourse/> to see the hosted version (same as local version but just hosted in cloud)

-Note due to the way github pages works with routing if you try to refresh the page it will route you to github pages error page. If you accidentally hit refresh go back to link above
