Report for week 11

Team name: Team Deepcourse

Members: Maxwell Panec, Justin Barragan, Peizu Li, Hung Nguyen

Current Team Lead: Justin Barragan

Project Title: Study Sets

Github: https://github.com/maxpanec/Deepcourse

Job Assignment:

- Max: Login bug fixes

- Peizu: Flashcard set creation bug fixes

- Hung: Password verification implementation

- Justin: Contact us page bug fixes

Milestones With Deadlines:

1. Create React/Express apps and finalize features for the project (2/8)

2. Create UI mockups and design/host the database (2/23)

3. Implement creating accounts and homepage (3/9)

4. Implement creating/viewing flashcards (3/23)

5. Implement creating/taking quizzes (4/20)

6. Implement quiz progression timeline (4/27)

7. Comprehensive Testing and Polishing(5/4)

Technology Tools Used: React, Node, Express, MongoDB

Tasks/Milestones Completed: This week, our team focused on various bug fixes throughout our application. The following issues were resolved:

- Fixed an issue causing the login button incorrectly redirecting to homepage

- Resolved the "invalid username" error on flashcard set creation

- Removed the broken link in our homepage footer

- Added password verification to the "sign up" page

Instructions on Verifying Work:

- Build project based on instructions here:

  https://github.com/maxpanec/Deepcourse/blob/main/docs/expert_users/expert_user_guide.md

- Open the web app in your browser (go to frontend url from instructions above)

- Create an account - the sign up form will now include a password verification step

- Create a flashcard set - the creation page will no longer give the "invalid username" error

- Click links in footer - broken link removed
